## EDUCATION

College of Staten Island, Staten Island, NY

September 2019 – Present

**B.S. Computer Science**

College of Staten Island, Staten Island, NY

September 2021 – Present

**B.S. Physics**

**Leadership Honor Society**

May 2021 - Present

## WORK EXPERIENCE

**Social Media Intern**

September 2018 – November 2018

Staten Island, NY

I worked with Super STARS Academic Services during the fall semester as a blog writer and social media intern. I worked on improving their social media following as well as updating their company website.

**Blogger**

Staten Island, NY

July 2018 – August 2018

During the summer, I was a blog writer for Tom Crimmins Realty. Starting my internship in early July, I pretty much knew what to expect beforehand. There were two main components to the task including photography, and writing. I would have to say my favorite aspect of interning here was working independently yet still being a part of a team.

**IT Support Technician**

September 2017 – June 2018

Staten Island, NY

I worked with the school technician on Fridays to repair broken laptops and anything else that needed to be repaired. I also took inventory of the laptop carts in each classroom and checked to ensure that everything was fine and working.

## SKILLS

- Tools and Technologies: Python, Java, MatLab, MS Excel, MySql, C++, C#, Relational Databases, Git
