Frameworks & Libraries: React.js, Node.js, MaterialUI, WireMock
Technologies: Android Studio, VS Code, Visual Studio, Figma, Git/GitHub, PyCharm, IntelliJ, Trello, Heroku, Linux
Certifications: Advanced Java Programming, Advanced Python: Working with Databases, Git Intermediate Techniques

RELEVANT EXPERIENCE

Lowe's Home Improvement   Charlotte, NC
Android Development Intern   May 2022 – Aug 2022
Embedded WireMock in the Debug Lowe's QA App so that developers could run the service within the app without launching and maintaining external tools.
- Wrote UI tests for multiple scenarios in the Payment Methods section of the wallet using Espresso and WireMock to ensure proper app functionality and seamless experience for the customer.
- Created a flag within the developer's controls that enables routing to WireMock instead of the backend. If the flag isn't enabled, it skips the WireMock setup entirely.
- Mapped overall customer journeys in the Offers, Gift Cards, and Payment Methods sections of the wallet.
- Participated in Agile routines and ceremonies such as Daily Standup, Backlog Grooming, Sprint Planning, Refinement, Demos.

College of Staten Island Career Center   New York, NY
Web Development Intern   Oct 2021 – May 2022
- Managed, maintained, and updated existing websites for the career center.
- Met regularly with career center staff to understand students' needs when using the career center services.

PROJECTS

CSI Student Showcase, Hackathon Winner
Figma, firebase, JavaScript, React.js, Material UI, React Router
- Developed a web app to help CSI students stand out to recruiters by displaying their skills, interests, and top projects along with their GitHub and LinkedIn profiles.

Lofi Git   Dec 2021
GitHub REST API, TypeScript, React.ts, Material-UI, Figma
- Developed a website where you can enter your username and view your public stats from Github.

Fluffle, Hackathon Winner   Sep 2021
Javascript, HTML, CSS
- Developed a website where you can track your emotions, journal daily, read positive affirmations, and meditate with the breathing assistant.

SUPPORTING EXPERIENCE

Office of Information Technology Services   New York, NY
Computer Lab Assistant   Jan 2022 – Aug 2022
- Assisted students and professors with computer use, software, and equipment such as printers and projectors.
- Maintained the front desk in the library lab and ensured students followed the computer lab's rules and protocols.
- Operated the labs on campus by opening and closing them on a timely schedule.

Super STARS Academic Services, LLC   New York, NY
Social Media Intern   Sep 2018 – Jun 2018
- Managed content, developed media plans and updated social media, including Facebook, focused on increasing engagement.
- Developed and scheduled weekly social media messages to provide outreach.
- Communicated with management to develop media plans and update social media, including Facebook.

EDUCATION

City University of New York College of Staten Island Bachelor of Science in Computer Science   Dec 2022
Relevant Coursework: Analysis of Algorithms, C++ Programming, Database Fundamentals, Data Structures, OOP Programming Java
